Precise-claims.com

PRECISE adjustments, Inc.

Because there's more to adjusting a claim.™

Advantages and Capabilities

Experience

More than 25 years.

Precise may have formally started only in 2002 but preparing for it took more than 25 years of actual claims adjusting and management experience. Decades of actual field work. Insights that can only come from thousands of claimant interactions. Challenges met through major catastrophe claim situations. When you have that length and breadth of experience, no claim is too complicated or too difficult. In fact, they're all welcome at Precise because they enrich the experience.

Knowledge

Multiple lines, multiple carriers.

Property and casualty. Residential and commercial hazard. Condos and mobile homes. Automobile. Auto GAP. Primary and excess flood. Standalone wind. Hurricane. Earthquake. Inland marine. Voluntary homeowners. Lender placed insurance. We may engage in multiple lines and represent multiple carriers, but at Precise we only pursue one goal - to apply knowledge well and adjust a claim the right way.

Technology

Web reporting and access, real time updates.

Because a loss is a disruptive life experience, Precise utilizes all available technology to simplify and expedite claim reporting. We accept claims by mail, phone, fax, and email, or through iClient® - the online portal for clients of our parent company, WNC Insurance Services. Through the latest estimating software and online reporting tools, real time claim updates including settlement status are available through precise-claims.com for our underwriters, carriers and financial institution clients.

Service

SLAs, process and procedures.

We know that performance can only be measured if you have set standards and targets. In addition to our own standard procedures and performance measurements, Precise works with each client to establish service levels that meet a client's expectations. For in the end, the true measurement of our performance is a reflection of how our client feels.

Integrity

Uncompromising.

Nothing else matters - not the years of experience nor the amount of knowledge, not shiny new technology nor even stellar service - unless it is imbued with integrity beyond scrutiny. At Precise, we can say without a doubt and pledge without reservation - that when it comes to our integrity, we never compromise.

Damage Appraisals & Re-inspections

Quick, complete, precise.

At Precise, damage appraisals are quick because we have the tools and experience. Complete because we have the knowledge. Precise because it's our promise and our name. Whether you need short-form damage appraisals, re-inspections, or full loss adjustment services that would include underwriting notes, subrogation, origin or cause investigation, and other additional benefits, you can count on us to deliver the kind of service you need - quickly, completely, and precisely.

Third Party Administration & Mediation Representation

Full claims management, mediation representation, underwriting support, management reports, and more.

If you want end-to-end claims management as your TPA including expert mediation representation, Precise is ready. We have the experience to satisfy your requirements, knowledge to serve your needs, technology to expedite your claims, service to meet your standards, and expertise to help you resolve claim challenges. But most of all, our integrity mirrors your own. Give us the task of managing your claims and we'll give you the results you've always wanted. Call us today.
